

PhD course Supramolecular Chemistry 2015, Eindhoven session
“Bio-supramolecular chemistry”

Thursday 28th of May and Friday 29th of May, Eindhoven, The Netherlands
Venue: Institute for Complex Molecular Systems (ICMS), De Zaale, 5612 AJ
Eindhoven, The Netherlands. Internal address: Groene Loper 7, Ceres building

Programme:

Thursday 28th of May (room CE 0.31)

- 10.30** Arrival and welcome
- 10.45** Opening
- 11.00** Lecture 1: Rint Sijbesma
“Supramolecular polymers”
- 12.45** Lunch
- 14.00** Lecture 2: Patricia Dankers
“Supramolecular Biomaterials for Translational Biomedical Science”
- 15.45** Coffee Break
- 16.15** Lecture 3: Tom de Greef
“In-Vitro Synthetic Biology: Engineering Programmable Biomolecular Circuits Outside the Cell”
- 17.45** Drinks and dinner buffet at the Zwarte Doos
- 19.30** Evening Lecture: Bert Meijer
“From self-assembly to multi-step non-covalent synthesis”

Friday 29th of May (room CE 0.31)

- 09.00** Lecture 4: Jeroen Cornelissen
“Chemical Virology : biomolecular assembly at different length-scales”
- 10.45** Coffee Break
- 11.15** Lecture 5: Pascal Jonkheijm
“Supramolecular systems for dynamically probing cells”
- 13.00** Lunch
- 14.15** Jurrian Huskens
“Multivalency at interfaces in artificial and biological systems”
- 16.00** Closure & Departure
